

ADVANCING QUALITY

Distance and Online Education (DOE) has partnered with internationally recognized leading experts in the field of distance and online education to provide you with on-demand resources to launch your online teaching success and enhance your course designs. Are you new to teaching, teaching online, or looking to learn something new? We support Iowa faculty and instructional staff with access to Online Learning Consortium (OLC) and Quality Matters (QM), two of the most widely recognized professional development organizations promoting quality online instruction.

START TODAY

Learn from leading thinkers and practitioners in the field and browse a deep library of research in distance and online education excellence. You can start with the basics of online course design best practices, or jump into emerging topics such as adaptive learning, open educational resources (OER), learning analytics, gamification, AR/VR and mobile learning.
